MOTEL ONE

THE COUD ONE HOTELS

Building upon the foundation of the successful Motel One concept, The Cloud One Hotels focus on enhancing guest experiences, embracing individuality, and championing sustainability. This new brand offers even more development flexibility, particularly for acquisitions. The new lifestyle brand is therefore an additional driver for growth and the exploration of new markets.

TIONS

Individuality

Every trip, every city and every hotel is unique. With individual designs, events, different room concepts and individually selected F&B offers, each of The Cloud One Hotels tells its very own story.

Experience

At The Cloud One Hotels we celebrate experiences - in our hotel and around it. To feel the vibe of a city, you have to move away from the crowds. Check out our exclusive wine bar or have one of our locally-inspired cocktails on the lounge terrace and mix in some authentic sounds from local DJs when the sun sets.

Sustainability

A little bit of sustainability is not enough for us: at The Cloud One Hotels, it is at the forefront of everything we do - from bathroom products to sustainable design to energy use. We live sustainability and try to get better every day. We underline our commitment by using 100 percent green electricity from renewable sources, buying local and organic food and using sustainably-certified textiles. All our bathroom amenities such as shampoo, shower gel and body lotion are organic products.

NEW YORK

The Cloud One New York-Downtown is located in the immediate vicinity of the World Trade Center complex, the 9/11 Memorial, Wall Street and Battery Park.

The hotel has 326 guest rooms across 28 floors, including two rooftop suites with a superb view of the New York skyline

and the Hudson River.

Inspired by the urban jungle of the big city, we picked up and continued this theme in a sustainable interior design concept: plants and natural materials like wood, rattan, leather and paper create a modern yet cosy atmosphere. The organic breakfast buffet includes locally sourced, artisan produce from Soho and Brooklyn. For the bar, a first class sommelier has curated a unique selection of 60 organic wines from US vineyards. The bar and terrace on the sixth floor invite our guests to enjoy a drink while the setting sun is reflected in the glass façades of the surrounding skyscrapers. A unique sound concept and a weekly rotation of DJs round off the experience.
